

Los Angeles Area Nuclear Disarmament Coalition

A Petition for Nuclear Disarmament

To President Obama and the United States Congress:

We, the undersigned, believe that nuclear weapons pose the greatest immediate threat to the world, as we know it. To protect our children, our grandchildren and our earth from nuclear catastrophe, we must eliminate all nuclear weapons globally. We therefore commit to working for a legally binding, verifiable international agreement to abolish nuclear weapons by a date certain, within our lifetimes. **To this end, we expect our elected United States representatives to act urgently, doing everything possible, to ban and eliminate nuclear weapons.**

“In unlocking the secrets of the atom, modern man has found himself confronted with a frightening problem—what to do with the most dangerous materials that have ever existed in all earth’s history, the by-products of atomic fission.”

—Rachel Carson
The Sea Around Us

“... And as a nuclear power—as the only nuclear power to have used a nuclear weapon—the United States has a moral responsibility to act. We cannot succeed in this endeavor alone, but we can lead it.

So today, I state clearly and with conviction America’s commitment to seek the peace and security of a world without nuclear weapons.”

—President Barack Obama, Prague, April 5, 2009

I would like to help LAANDC.
